## education

- 2008–2013 **Expert** in Information Technologies EPITECH, France  
EPITECH has an innovative methodology based on projects, group work and autonomy which allowed me to turn my passion into a real expertise.
- 2011–2012 **Computer Science** exchange student Concordia University, Canada  
During two semesters at Concordia University, I had the opportunity to study computer science in this prestigious university.

## experience

- 2018–now **Mangrove** Paris, France  
*Chief Cloud Architect*  
–
- 2014–2018 **PredicSis** Paris, France  
*DevOps Engineer*  
I was in charge of the whole AWS cloud architecture and automation as well as CI/CD cycles of various projects.
- 2012–2014 **BSO Network Solutions** Paris, France  
*Systems Engineer*  
As an engineer at BSO, I am responsible for the outsourcing of client's platforms sometimes larger than 200 hosts. I am also in charge of the integration of new solutions, providing advices to the customer and doing level 2 & 3 support.

## certifications

## communication skills

- 2017 **AWS Summit Paris** Carroussel du Louvre, France  
*DevOps on AWS* – Presented the way we automated creation of AMI for AWS Marketplace using AWS services and open-source software.
