experience

| 2018–now | **Mangrove** | Paris, France |

Chief Cloud Architect
–

| 2014–2018 | **PredicSis** | Paris, France |

DevOps Engineer
I was in charge of the whole AWS cloud architecture and automation as well as CI/CD cycles of various projects.

| 2012–2014 | **BSO Network Solutions** | Paris, France |

Systems Engineer
As an engineer at BSO, I am responsible for the outsourcing of client's platforms sometimes larger than 200 hosts. I am also in charge of the integration of new solutions, providing advices to the customer and doing level 2 & 3 support.

education

| 2008–2013 | **Expert** in Information Technologies | EPITECH, France |

EPITECH has an innovative methodology based on projects, group work and autonomy which allowed me to turn my passion into a real expertise.

| 2011–2012 | **Computer Science** exchange student | Concordia University, Canada |

During two semesters at Concordia University, I had the opportunity to study computer science in this prestigious university.

certifications

aws CERTIFIED — Solutions Architect Associate

aws CERTIFIED — Solutions Architect Professional

aws CERTIFIED — Big Data Specialty

communication skills

| 2017 | **AWS Summit Paris** | Caroussel du Louvre, France |

DevOps on AWS – Presented the way we automated the creation of an AMI for the AWS Marketplace using AWS services and open-source software.
