experience

2018–now	**Mangrove**	Paris, France

Chief Cloud Architect
–

2014–2018	**PredicSis**	Paris, France

DevOps Engineer
I was in charge of the whole AWS cloud architecture and automation as well as CI/CD cycles of various projects.

2012–2014	**BSO Network Solutions**	Paris, France

Systems Engineer
As an engineer at BSO, I am responsible for the outsourcing of client's platforms sometimes larger than 200 hosts. I am also in charge of the integration of new solutions, providing advices to the customer and doing level 2 & 3 support.

education

2008–2013	**Expert** in Information Technologies	EPITECH, France

EPITECH has an innovative methodology based on projects, group work and autonomy which allowed me to turn my passion into a real expertise.

2011–2012	**Computer Science** exchange student	Concordia University, Canada

During two semesters at Concordia University, I had the opportunity to study computer science in this prestigious university.

certifications

aws CERTIFIED — DevOps Engineer Professional

aws CERTIFIED — Solutions Architect Professional
